DIFJ sample school presentation
(abridged)

The Jack Quehl Foundation was established in 2022 in loving memory of John “Jack” Thomas Quehl who tragically lost his life due to fentanyl poisoning.

Agenda

- Introduction
- Jack's Story
- Jack's Friends' perspective
- Fentanyl Facts
- Q & A

Labor Day 2021

The last time we saw Jack alive. We wish someone would have told us about the dangers of fentanyl. Perhaps if we had the opportunity to have the conversation with Jack, he would still be alive.

Don't wait, this could happen to anyone.

Fentanyl facts

Fentanyl – The Invisible Killer

Fentanyl is a synthetic opioid made by Mexican drug cartels that is pouring into our country every day.

Cartels add it to fake pills, cocaine, marijuana, vape cartridges, and other illegal and recreational drugs.

Incredibly Deadly

2 mg
can kill

50x stronger
than heroin

100x stronger
than morphine

A LETHAL DOSE
OF FENTANYL

From the DEA Website: Current Statistics

In 2023, DEA **seized more than 80 million fentanyl-laced fake pills** and nearly **12,000 pounds of fentanyl powder**.

The 2023 seizures are equivalent to **more than 390 million lethal doses of fentanyl**.

PUBLIC SAFETY ALERT

Laboratory testing indicates **7 out of every 10 pills** seized by the DEA contain a lethal dose of fentanyl.

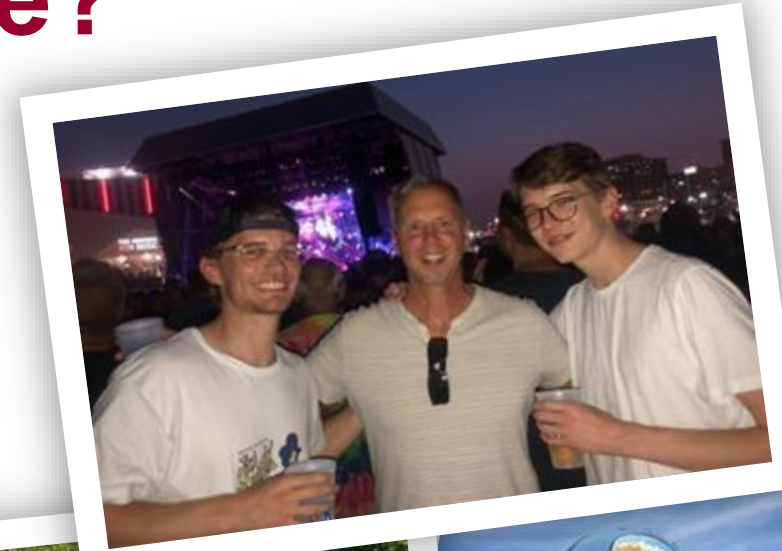

In **2024**, DEA seized more than **55,500,000 fentanyl-laced fake pills**, representing over **367 million deadly doses**.

Where do we go from here?

This problem is NOT stopping. DoitforJack believes knowledge is power and through education and conversation we can make a difference.

We want to save someone else's JACK.

**Don't let this
happen to
your family.**

Have the Conversation.
